I agree that my submitted data is being collected and stored.

SIGN UP

Choose the "Register" tab in order to fill in the form.

Fill in your details carefully. Choose a strong password by using alphanumeric characters as well as a mix of lower and upper case, and symbols.

You have to accept the term at the bottom of the form stating that the platform collects and stores all the data used in it.

By clicking the "SIGN UP" button you will be notified that an email has been sent to the email address that you entered in the form. You must check that email and click on the confirmation link therein.

After that your account is active and you can use your credentials to log in and explore the platform.

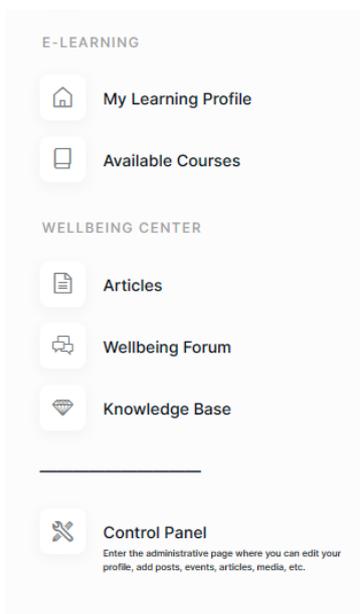

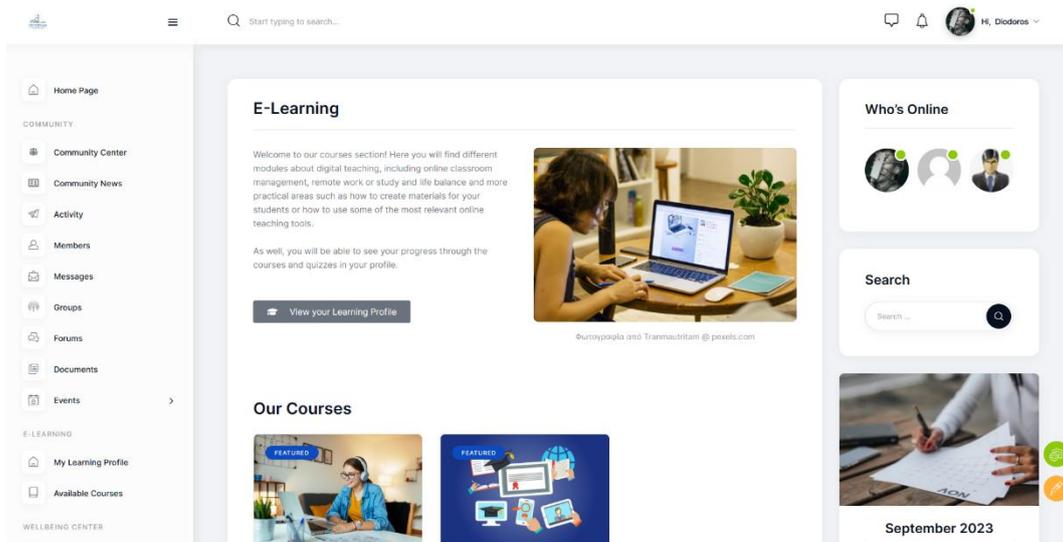

Now you can access all the content of the platform.

The main areas / tools are the following three:

1. The E-Learning section where you can take our courses
2. The Wellbeing Center where you can read, watch and discuss with other teachers on topics related to your wellbeing as a teacher.
3. The Community Center where you can connect and interact with other teachers in general topics but always keeping in mind our terms and conditions.

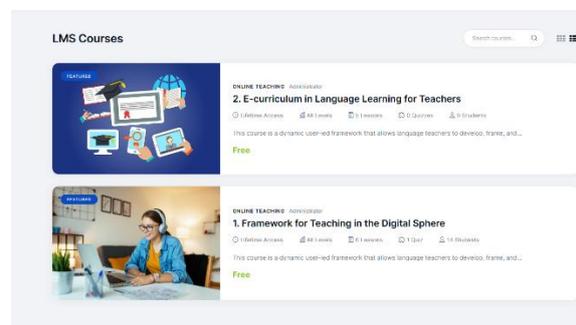

The E-Learning Section

In the E-Learning section you can browse the available courses, take these courses, view and modify your learning profile.

Wherever you are in the platform, except the home page, you can access all the tools and content by using the menu on the left side.

You can see the list with available courses,

The course

Instructor Administrator | **Category Online Teaching**

1. Framework for Teaching in the Digital Sphere

Lifetime Access | All Levels | 6 Lessons | 1 Quiz | 14 Students

Free

START NOW

Overview | Curriculum | Instructor

This course is a dynamic user-led framework that allows language teachers to develop, frame, and manage protocols for on-line language teaching. It establishes learning and teaching processes for the teacher and their interactions with their learners. It contains 5 sections with supporting material and information for language teachers and a downloadable file with the overall framework material.

For each course you can read some basic overview, check on the curriculum, start or continue learning.

All courses are free and in order to start learning you have to click on the blue button in the right sidebar with title "START NOW".

1. Framework for Teaching in the Digital Sphere

0 of 7 items

Module 1: Classroom management

- Lesson 1 - Classroom Management ✓

Module 2: Interaction types in online classes

- Lesson 2 - Interaction types in online classes ✓

Module 3: Teachers' Online professionalism

- Lesson 3 - Teachers' Online Professionalism ✓

Module 4 - Creating an online teaching identity

- Lesson 4 - Creating an online teaching identity ✓

Module 5: Teacher/student well-being

Lesson 1 - Classroom Management

1. THEMATIC DOMAIN OF THE MODULE

Introduction

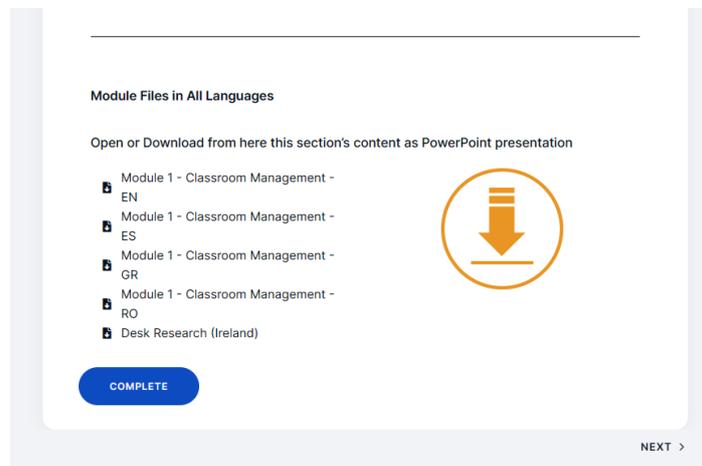

This module looks at how to manage language classes that are delivered virtually via one of the online platforms designed for the purpose of teaching / learning language online. It will provide advice on how to manage different types of learners, including and especially young learners, whilst keeping them motivated and engaged. It will also offer guidance on how to build rapport and use the various available tools such as breakout rooms.

2. OBJECTIVES AND LEARNING OUTCOMES

At the end of this unit, you will be able to:

NEXT

Each course consists of one or more lessons. By starting the course you will see the contents of the first lesson displayed in the right frame. On the left frame you see the whole curriculum.

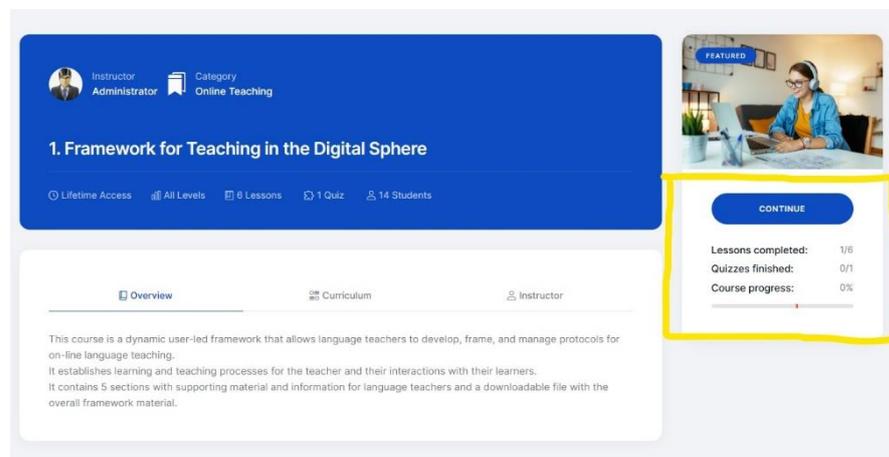

In order for a lesson to be considered as completed you have to go through the whole material and when you are ready to click the blue COMPLETE button.

You will be prompted to verify the completion of the course and then you can move to the next one.

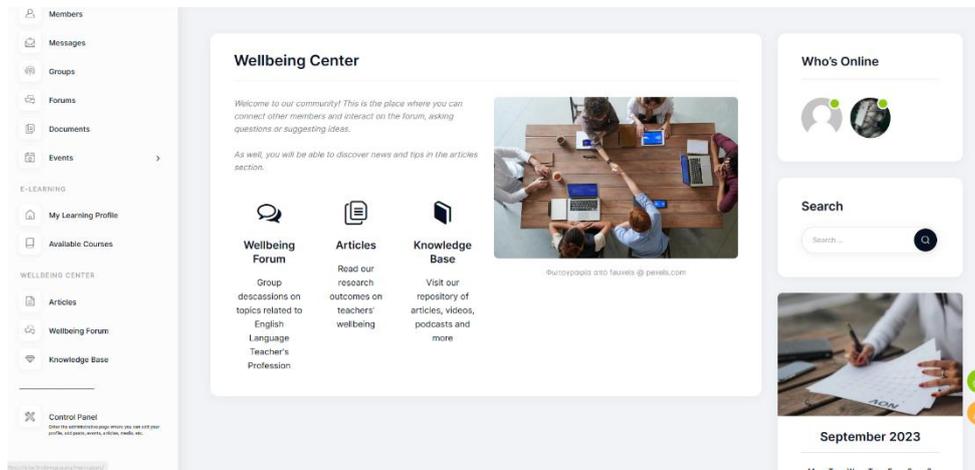

Be careful! At the right bottom corner there is a **NEXT >** link that takes you to the next lesson. If you do so instead of pressing the blue COMPLETE button, then your lesson won't be considered as complete. The reason for that link is for navigation purposes between the lessons.

You don't have to complete all the lessons at once. You can stop and continue whenever you feel like so.

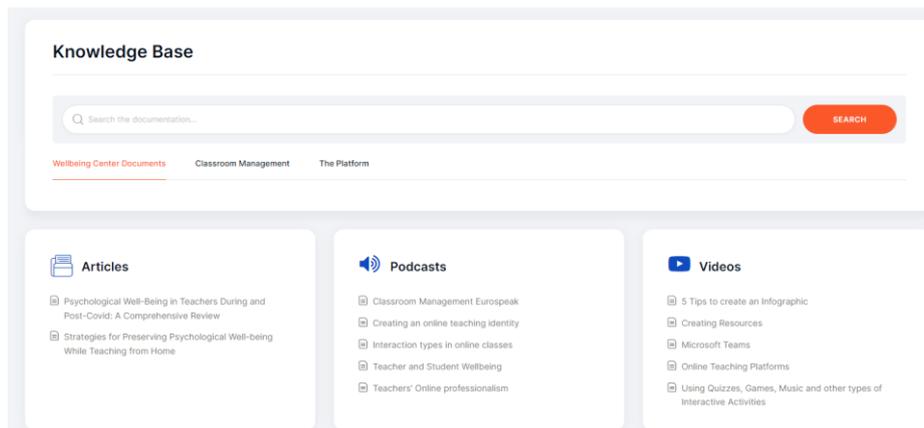

On the right sidebar of your course card you can click on the blue CONTINUE button to continue with the rest of the lessons. The platform keeps track of your progress.

The Wellbeing Center

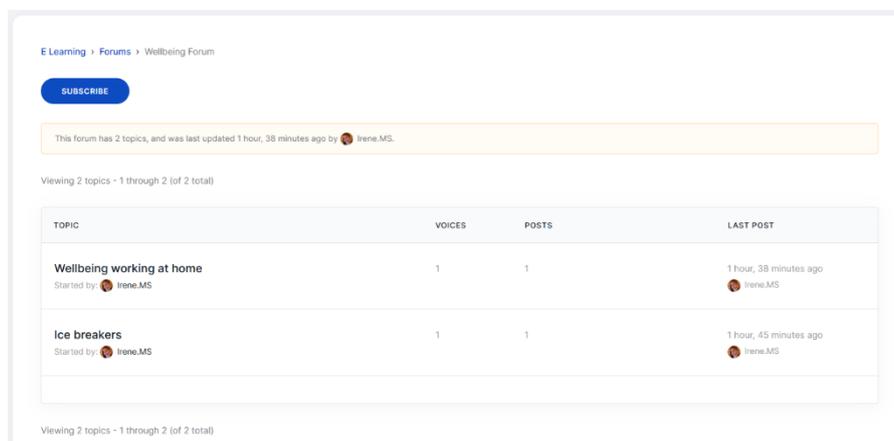

Read, discuss, interact, communicate!

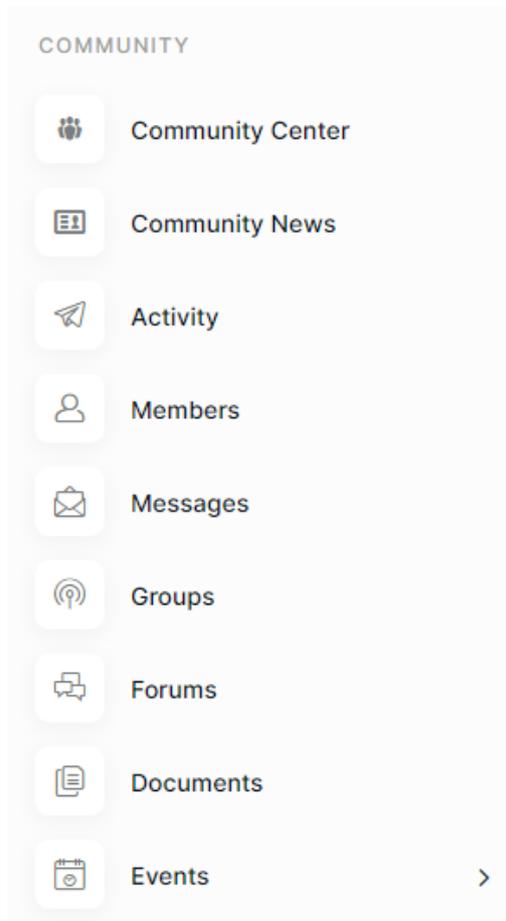

In our Knowledge Base you will find articles, videos and podcasts useful and related to your wellbeing as a teacher.

Visit the Wellbeing Forum to participate in current discussions or start your own one.

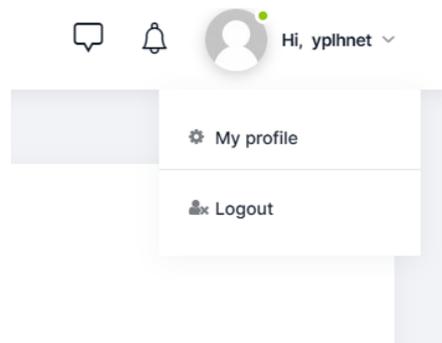

The Community Center

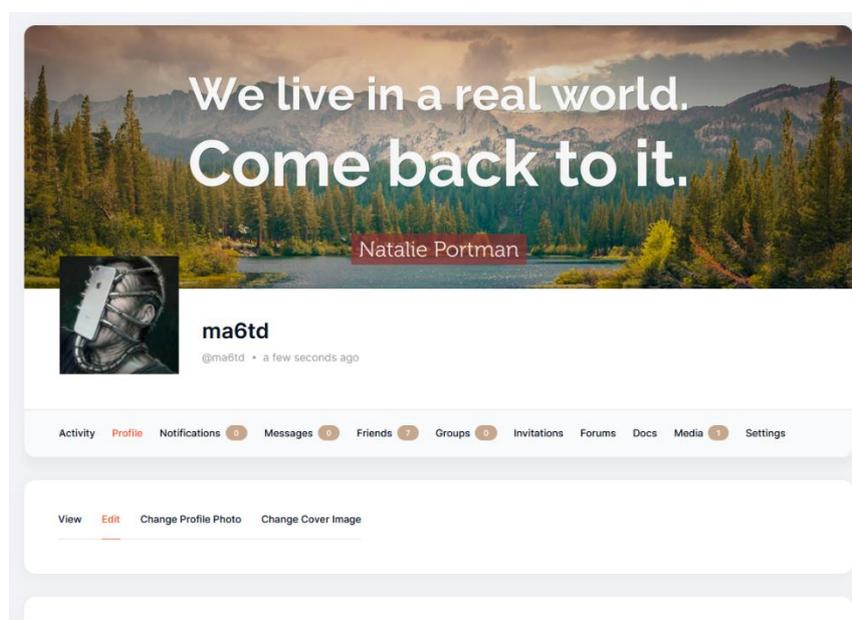

In Electrolengua we believe in people's interaction and communication to improve ourselves and develop our careers. To facilitate this belief we have incorporated in the platform a feature like social medium, where users can post, talk, exchange, communicate and develop. Our Community is a tool that provides a basic functionality for this purpose.

We believe that such a tool doesn't require lot's of explanation today in the era of social media.

You have a profile which you can access by clicking on your username on the top right corner of the page:

There you can check your activity and notifications, post messages, edit your profile, join groups, accept invitations, etc.

The Control Panel

Finally, for those who would like to explore and do more things, there is access to the backend of the platform via the Control Panel link at the bottom of the menu in the left sidebar.

There you can write a new article for the platform, add an event, your testimonial, and check the same things (profile, requests, invitations, etc) as via your profile page.
